

SQX Online Solution Day Q2 2022

Into Fully AI Empowered Ecosystem

21st June to 12th July 2022 (4 sessions on each Tuesday)

2:00pm – 2:40pm

Webinar on **zoom**

Register by scanning this QR code or click the link below

HKD100 coffee e-coupon is prepared for delegates who attend all sessions. Special SQX gift will be given to attendees who have participated in the Q&A session.

REGISTER NOW

email to RSVP@securex.hk for inquiry

Proof of attendance will be provided on request. Please mark your requirement on registration.

Registration at the discretion of SQX and is subjected to SQX's final confirmation by email. SQX reserves the final right to the distribution of any welcoming gifts.

Into Fully AI Empowered Ecosystem

Bosch is a leading global supplier of security, safety, and communications products and systems. Bosch offers solutions and services for building security, energy efficiency and building automation.

Milestone Video Management Software (VMS) is the industry-leading AI empowered open platform VMS for IP camera-based security and CCTV. Milestone XProtect brings all the puzzle pieces for video surveillance together in a perfect combination to create a solution that keeps people and property safe today – and tomorrow.

Quantum provides secure, end-to-end solution that allows you to manage and preserve your data for decades, to easily extract insights from it. Quantum also provides software and services to manage and enrich data, including the most complex unstructured data and video files.

Delivering accurate, flexible, and comprehensive solutions, BriefCam's video analytics platform provides valuable insights for accelerating investigations, increasing situational awareness, and enhancing operational intelligence.

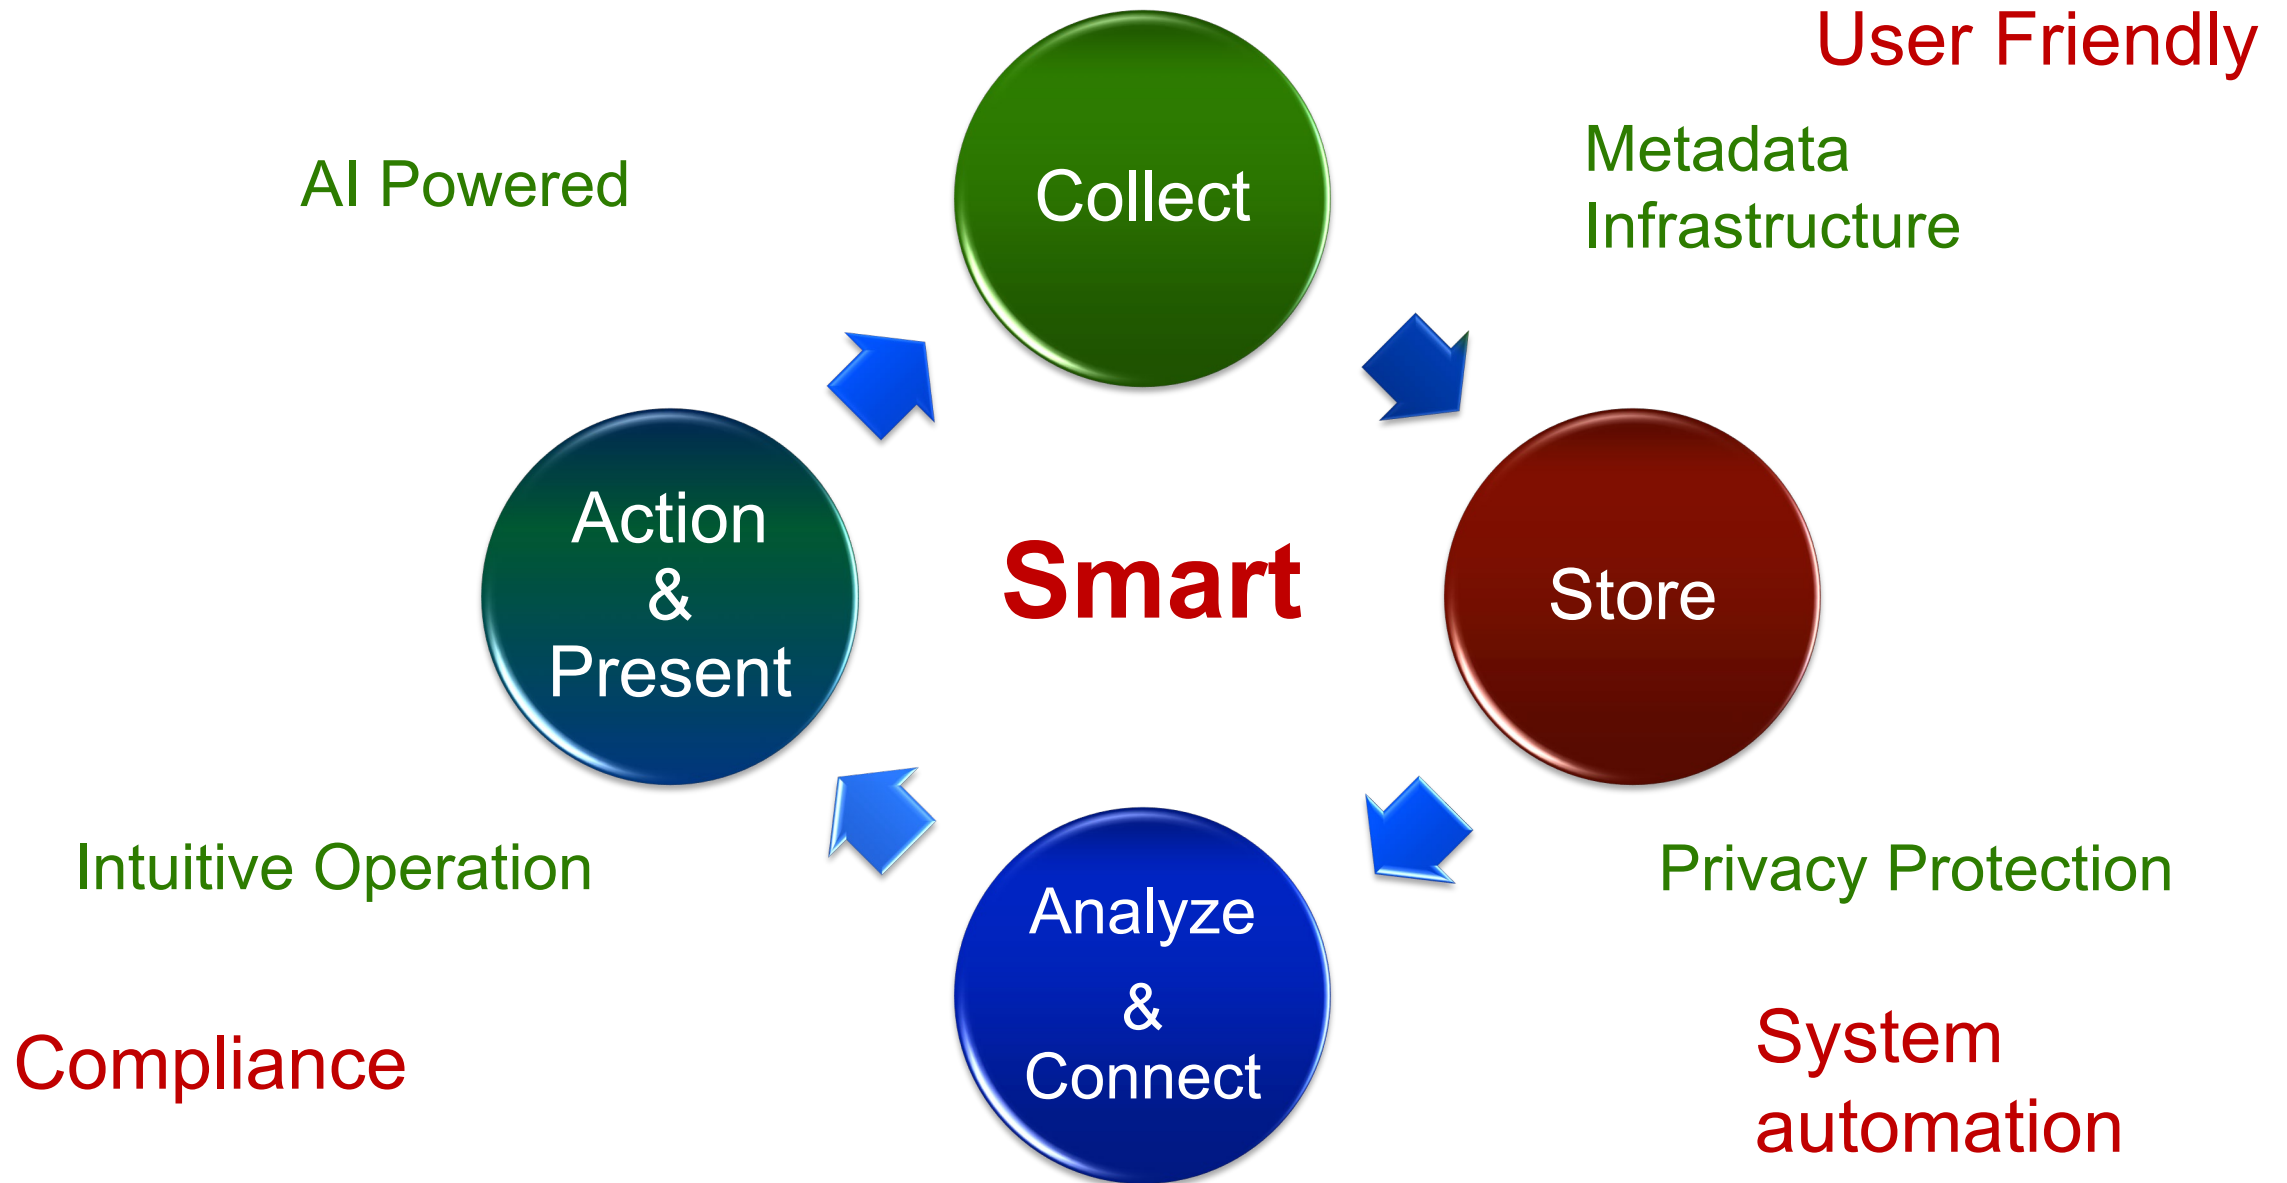

Agenda

Schedule	Presentation followed by Live Demo	Speaker / Panelist
Session 1 21 June 2022 (Tue) 2:00pm - 2:40pm	Solutions on SMART CITIES	Mr. Desmond Chung Distribution Channel Manager ASIA, Milestone Mr. Swee Siong Tan Channel Business Manager North Asia & China, Milestone
Session 2 28 June 2022 (Tue) 2:00pm - 2:40pm	Hyperconverged-infrastructure for Video Surveillance	Mr. Anthony Koo Business Development Manager APAC, Quantum
Session 3 5 July 2022 (Tue) 2:00pm - 2:40pm	Bosch AIoT video systems deliver the Power to Predict.	Mr. Louis Lee Sales Manager, Bosch
Session 4 12 July 2022 (Tue) 2:00pm - 2:40pm	Transforming Video into Valuable Insights	Mr Ken Chan Regional Director – NorthAsia BriefCam

Smart Security Platform – From Reactive to Proactive

- Smart Operation supported by strongest AI empowered ecosystem partners

Milestone AI Bridge				√	√
Milestone Integration Platform VMS API	√	√	√	√	√
Windows 11 supported OS	√	√	√	√	√
XProtect 2022R1 on AWS	√	√	√	√	√

Improved Export workflow

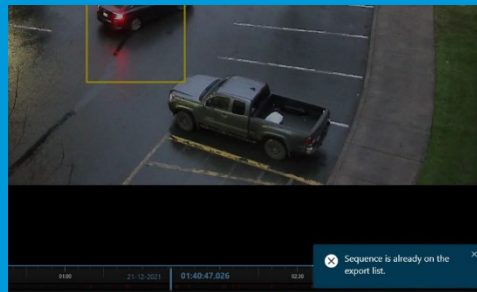

Flexible interaction

The dedicated export tab is designed to allow for a more flexible workflow. Instead of displaying the export dialog as a modal window, operators can now move in and out of the export workflow, switching between tabs while building the list of evidence to be exported.

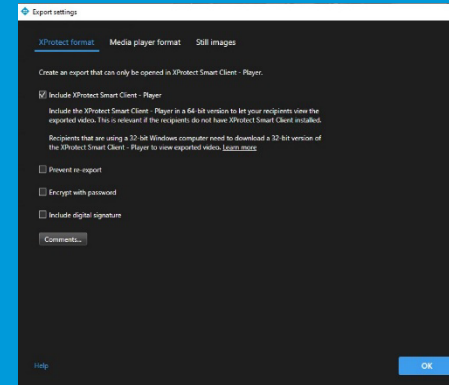

Bigger preview

The preview of the selected video clips has been enlarged, giving the operator a better picture of what he is about to export.

More feedback to the operator

The enhanced export workflow provides the operator with simple feedback and/or instruction (also known as notification toasts) about the actions done to make the experience as easy as possible.

Less clutter

Frequently used export settings are easily accessible and less frequent settings are now grouped into a separate dialogue, putting the focus on what the operator needs the most.

Video Surveillance Portfolio

Infrastructure for Video Surveillance of
any Size and Scope

Quantum[®]

Your difference is in your data.[™]

Quantum - Global Leader in Storage and Video

40

Years as a trusted custodian of digital data

20

Years managing video and unstructured file data

30,000

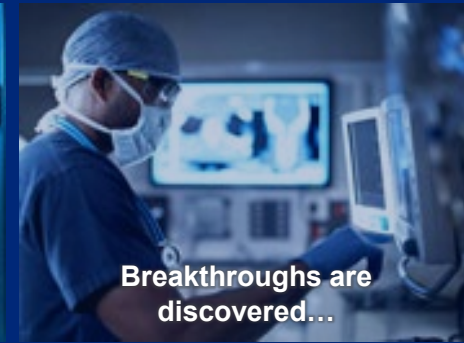

Active support contracts around the world

44+

Exabytes of data preserved

The biggest cloud archives are built...

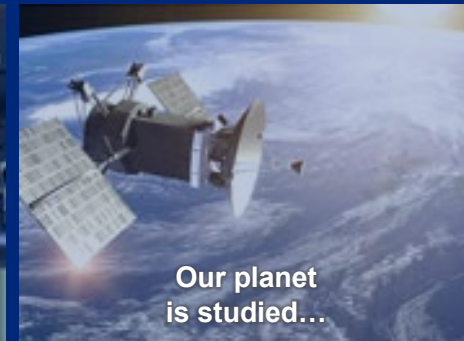

Breakthroughs are discovered...

Machine learning algorithms are developed...

Critical Infrastructure is protected...

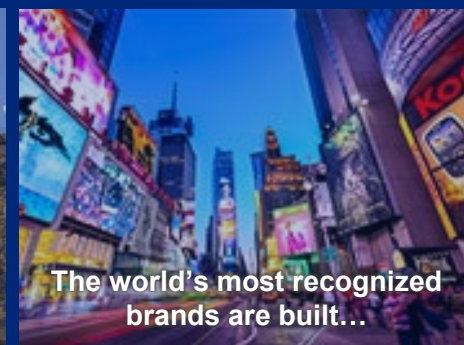

Our planet is studied...

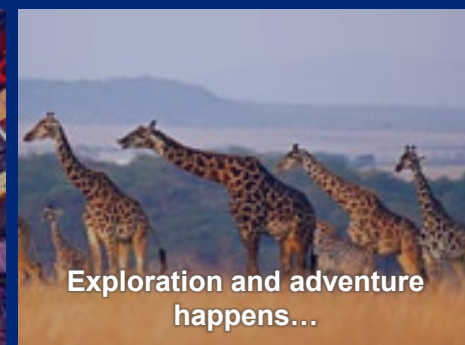

Nations are secured...

The biggest blockbusters are created...

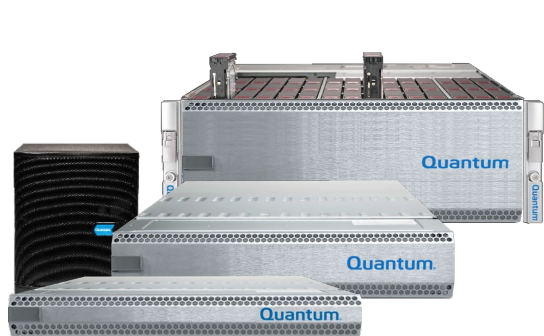

The world's most recognized brands are built...

Exploration and adventure happens...

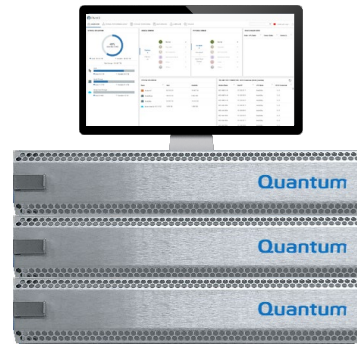

...ON QUANTUM

Quantum Video Surveillance Portfolio

VS-NVR Series

High performance, cost-effective network video recording servers

VS-HCI Series

Hyperconverged infrastructure for video surveillance recording and storage as well as hosting other physical security applications

VS-A Series

Servers optimized for video analytics, access control, management and more

Shared and Archive Storage

Scale-out file storage, object storage, tape, and cloud

The Right Solution for the Requirements Using a Broad and Purpose-built Portfolio

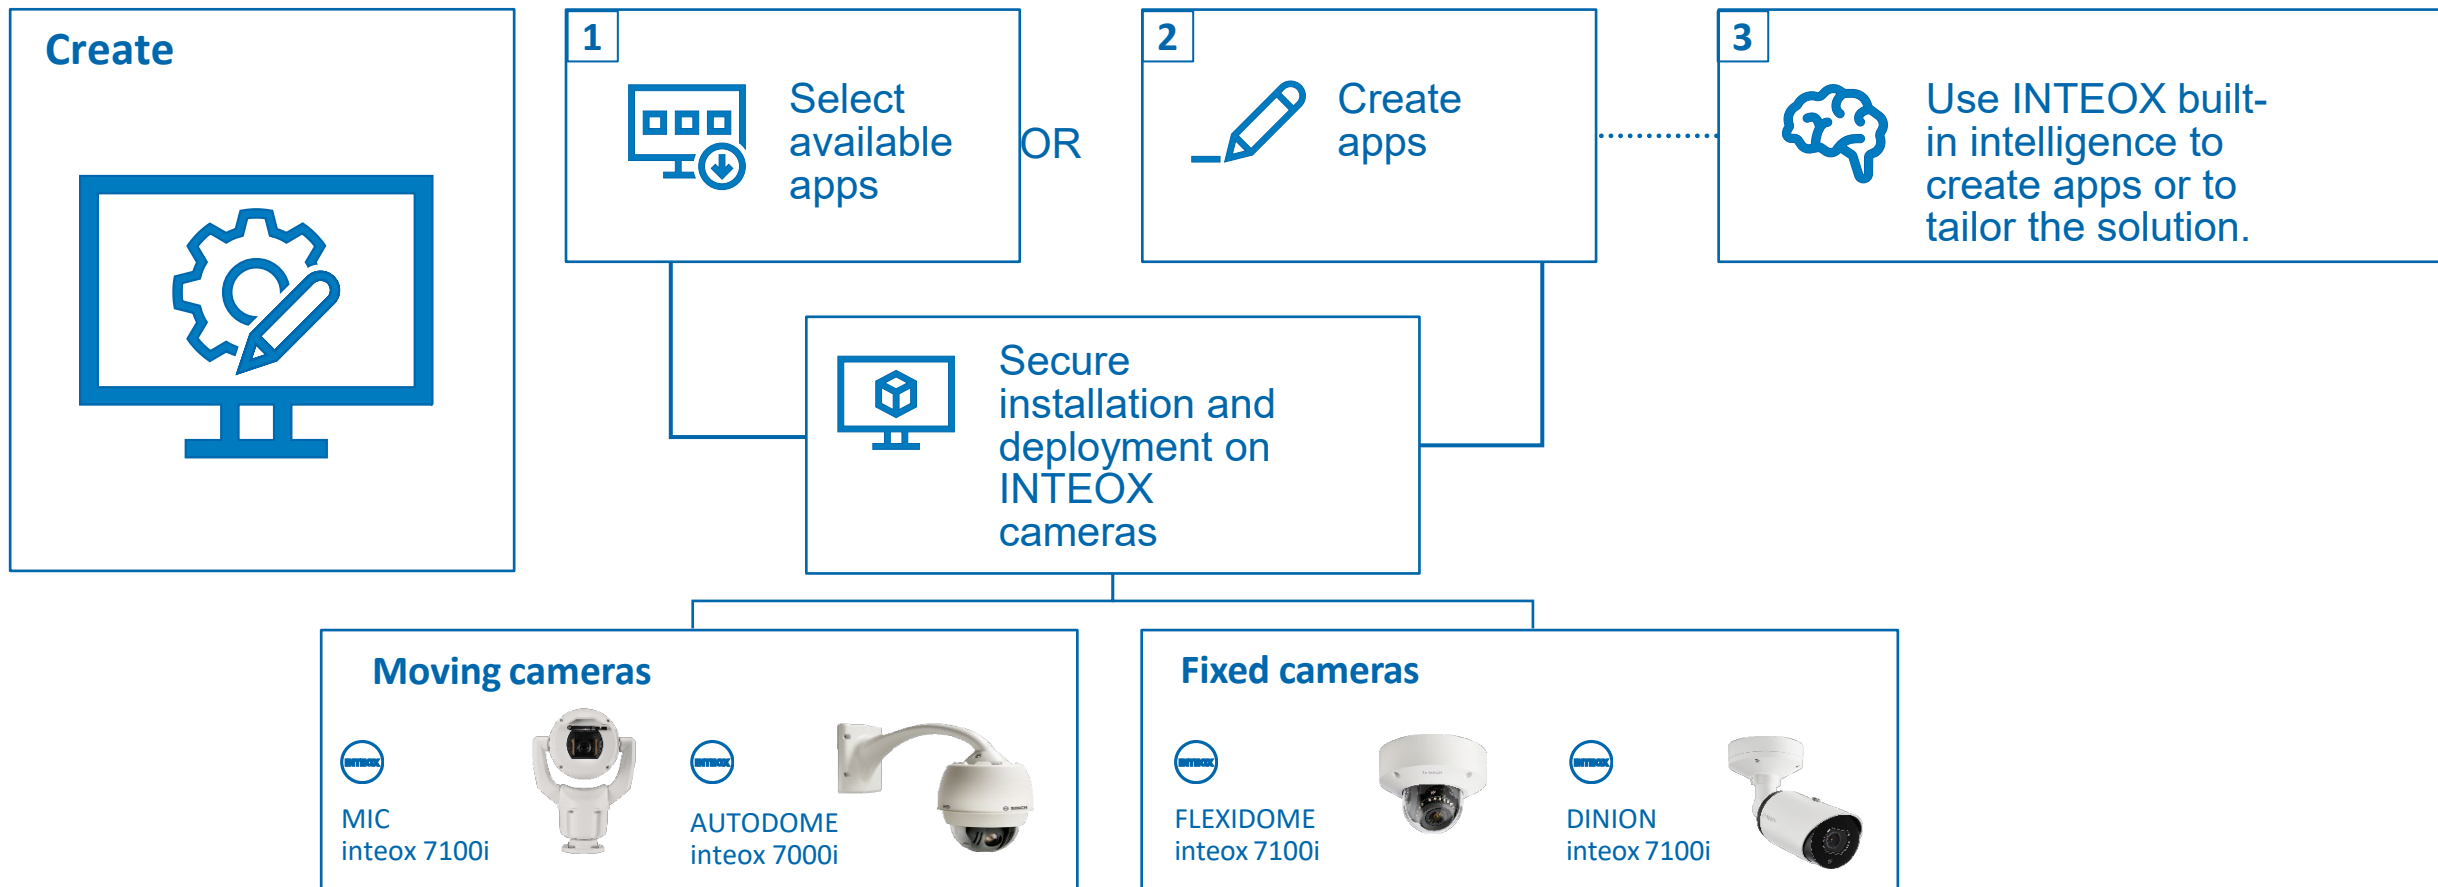

INTEOX

The INTEOX platform allows users to build customer-specific solutions, solving unique use cases

Full freedom for new development

Create customer-specific solutions

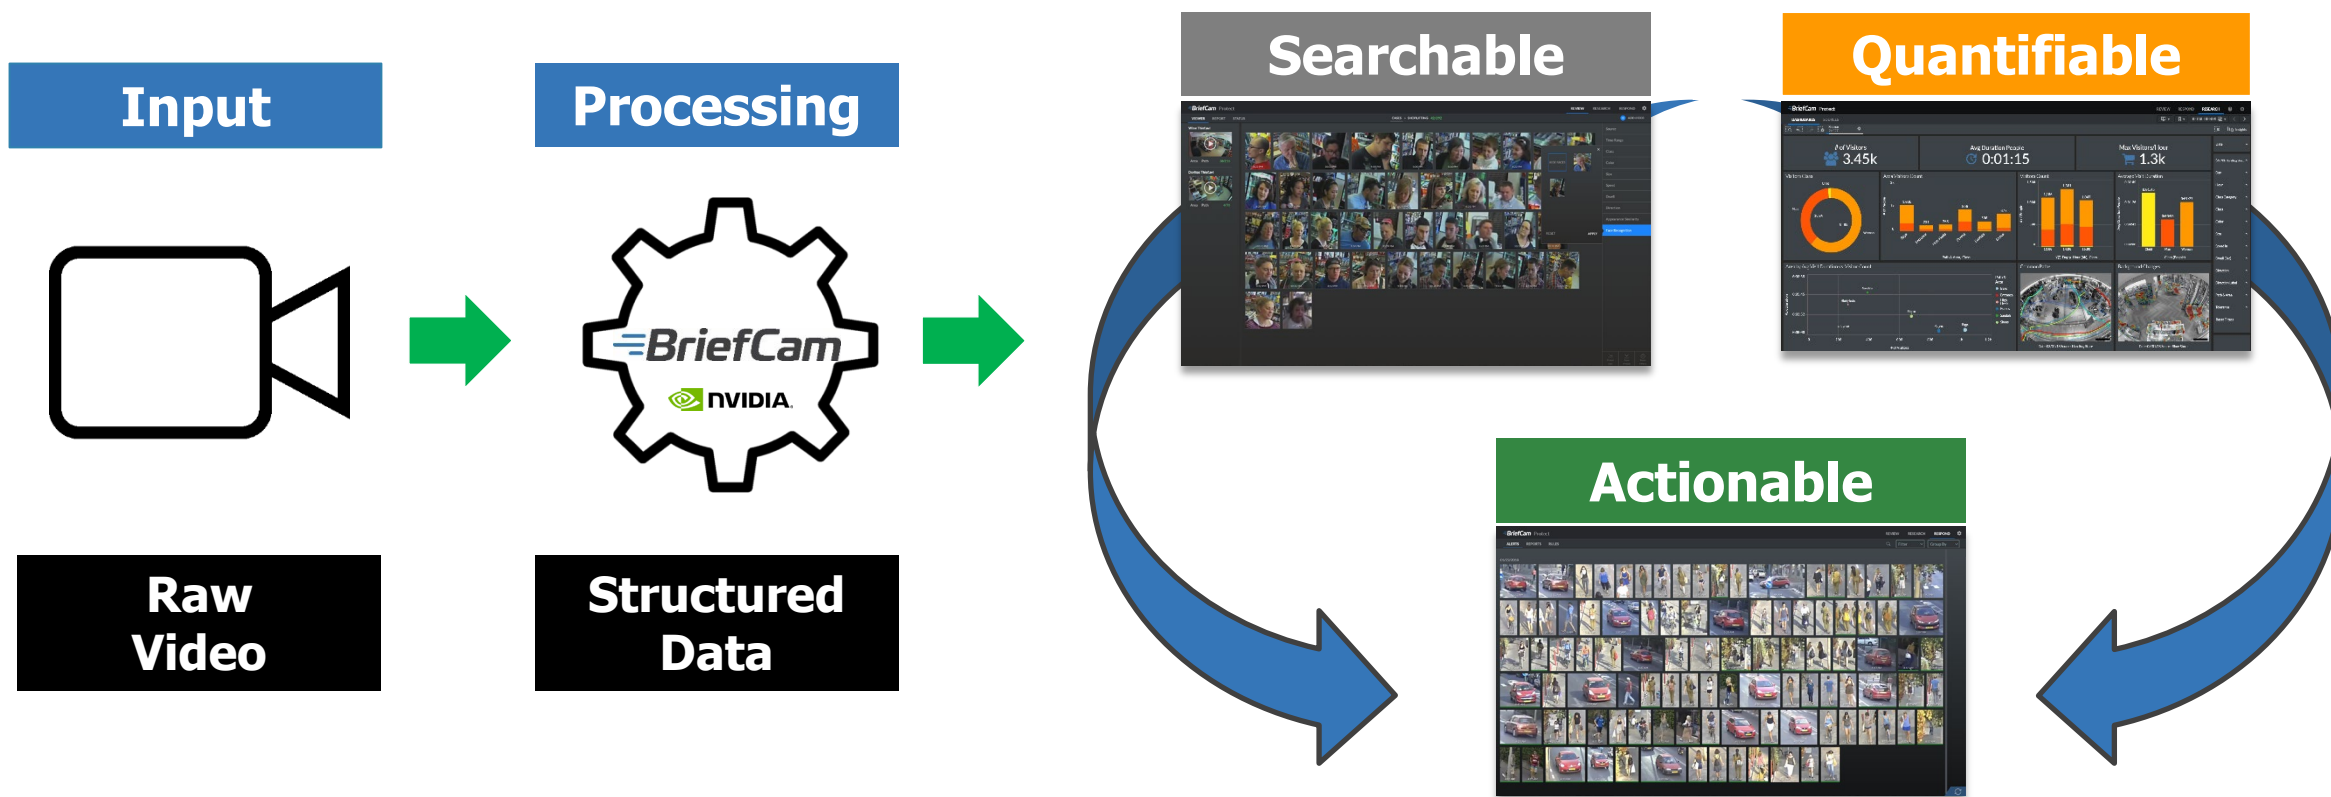

Select your device

All INTEOX cameras offer

- ✓ Smart security with built-in Video Analytics
- ✓ Excellent image quality and bitrate management
- ✓ Remote maintenance and firmware updates
- INTEOX **Full freedom** to create custom applications
- INTEOX **Data secure** with secure element inside
- INTEOX **Powerful** platform that supports
 - Deep neural network-based analytics
 - Triple video streaming

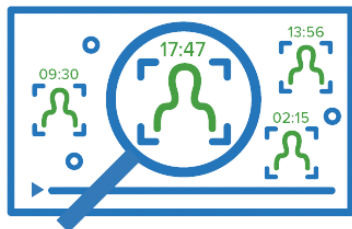

Unlocking the Value of Video

BriefCam's unique fusion of computer vision and Deep Learning technologies, together with its patented VIDEO SYNOPSIS® application, provides breakthrough process-once-use-many functionality

Three Seamless Integrated Solutions

REVIEW Solution

Detects, tracks, extracts and identifies people, objects, their attributes and behavior from video.

The screenshot shows the BriefCam Protect REVIEW interface. At the top, there are tabs for VIEWER, REPORT, STATUS, and SCHEDULED. The main area displays a grid of video thumbnails, each with a timestamp. The thumbnails show various scenes of people riding bicycles. On the right side, there is a sidebar with filters for Source, Time Range, Class (2-Wheeled Vehicles), Person Attributes, Color, Size, Speed, Dwell, Direction, Appearance Similarity, Face Recognition, and License Plate Recognition. At the bottom of the sidebar, there are buttons for 'Presets List', 'Save Preset', and 'Reset Filters'. The interface also shows a 'SILVER ALERT 97/871' and a 'SELECT ALL' button.

Three Seamless Integrated Solutions

RESPOND Solution

Leverage advanced **real-time notifications**, including support for **face recognition** and **license plate recognition** and **people counting**, to bring relevant events to the forefront and allowing quick review by those individuals who can provide an accurate assessment.

The screenshot displays the BriefCam Protect interface. At the top, there are tabs for 'ALERTS', 'RULES', and 'BOOKMARKS', with 'ALERTS' selected. A '52 Alerts' indicator is visible. The interface is divided into a left sidebar and a main content area. The sidebar lists three locations: 'Corridor' (5 Alerts), 'Waiting Area' (4 Alerts), and 'Walmart Intersection' (14 Alerts). The main content area shows a list of alerts with thumbnails and timestamps. The selected alert is a 'Walmart Intersection' event from 04/05/20 at 06:41 PM, with a rule name of 'Law Enforcement-Time Dependent...'. A large video player shows the alert content, and a right-hand menu offers actions: 'Original Video', 'Create Bookmark', 'Mark As Unwatched', 'Start A Review Case', and 'Download Image'. A video player control bar at the bottom shows a play button, a progress bar at 00:02/00:08, and a 1X zoom level.

Three Seamless Integrated Solutions

RESEARCH Solution

Extracts **quantitative insights** and visualizes them within **customizable dashboards** for operational efficiency and data-driven decision making.
