

# Network Video Recorders

Avigilon Network Video Recorders (NVRs) provide superior performance and reliability for video surveillance applications. All NVR models come with optimized high-performance recording technology, a three-year Avigilon warranty with dedicated support, and numerous additional features, including:

## ACC<sup>TM</sup> Video Management Software

Pre-installed and pre-configured plug-and-play solution for managing multi-megapixel digital IP and analog cameras.

## Appearance Search

Avigilon Appearance Search<sup>TM</sup> technology\* enables security operators to locate a specific person or vehicle of interest across an entire site or multiple sites connected to the same Avigilon Control Center (ACC) Client.

## Plug-and-Play Set Up

Pre-configured operating system, hot-swappable drives, and RAID technology enables quick deployment and increases system uptime and availability.

Simply choose the NVR model that provides the storage and throughput that your system requires—exceptional reliability and performance is built in.

**NVR Premium**

**NVR Standard**

**NVR Value**

NVR Premium	NVR Standard	NVR Value
Highest throughput, retention and performance	High performance with scalable storage	Enterprise-grade storage at a lower cost of ownership
1800 Mbps maximum throughput	900 Mbps maximum throughput	384 Mbps maximum throughput
64–157 TB recording capacity RAID 6 configuration	16–48 TB recording capacity RAID 6 configuration	3–18 TB recording capacity RAID 5 configuration
